Education

- **Amrita Vishwa Vidyapeetham** *Aug 2022 – Jun 2026*
  B.Tech in Computer Science and Engineering Bengaluru, India
  - CGPA: 9.09/10

Technical Skills

- **Cybersecurity:** Web Exploitation, Network Security, Vulnerability Assessment, Privilege Escalation, Reconnaissance, OWASP Top 10
- **Security Tools:** Nmap, Burp Suite, Metasploit, Wireshark, Netcat, Hydra, John the Ripper, Hashcat, Gobuster
- **Networking & OS:** Wi-Fi Architectures (AP & Cloud), Protocol Inspection, Packet Analysis, Linux System Administration
- **Languages & Web:** Python, Bash, JavaScript, HTML/CSS

Experience

- **Arista Networks** *Jan 2026 – Jun 2026*
  Software Testing Intern Bengaluru, India
  - Validated enterprise Wi-Fi Access Points (AP) and CloudVision Cognitive Unified Edge (CV CUE), bridging hardware functionality with cloud-based network management.
  - Executed real-world feature testing within the CV CUE platform, identifying potential failure points to ensure optimal performance, security, and deployment readiness.

Positions of Responsibility

- **Team bi0sblr [🌐]** *May 2023 – Jul 2025*
  Member, Web Exploitation & Penetration Testing Bengaluru, India
  - Competed in 20+ global CTF competitions, specializing in Web Exploitation and network vulnerabilities.
  - Strengthened practical penetration testing skills via TryHackMe and Hack The Box, actively engaging the infosec community through technical write-ups on personal blog.

Projects

- **PentestPal: Web App Pentesting Framework** *Feb 2025 – Present*
  Technologies: Python, Requests, BeautifulSoup, Sockets [🐙]
  - Engineered a modular framework to automate reconnaissance and detect common web vulnerabilities (XSS, SQLi, CSRF, SSRF).
  - Implemented real-time payload injection and response analysis to streamline exploit detection in web applications.

- **WebSleuth: Advanced Reconnaissance Tool** *Oct 2024 – Jan 2025*
  Technologies: Bash, Nmap, Dig, WHOIS, OpenSSL [🐙]
  - Developed a multithreaded Bash tool automating DNS enumeration, subdomain discovery, and SSL/TLS configuration analysis.
  - Enhanced usability through timeout handling and structured, color-coded terminal output, significantly reducing manual recon time.

Courses & Certifications

- **Google Cybersecurity Professional Certificate** (Google, 2026) | **Computer Networks Fundamentals** (Udemy, 2025) | **Ethical Hacking Essentials** (EC Council, 2023)
